Transforming MUD into delicate Jewellery is a beautiful way to express your creativity, by hand making wearable art...

These classes and workshops offer you a mix between traditional and unconventional techniques, guided by an experimental and intuitive approach.

BEADS MAKING CHIT CHAT

with Natural Clay and Slip

Just Pop-In!

Learn Clay from the very Beginning ...

THIS Friday Morning
10 - 11 AM
on the courtyard at the
Neighbourhood Center

\$20

www.b-clay.com

Marbling on your Ceramic Beads

Bring your jewellery to life, with the fun and addictive process of marbling..

Marbling was a traditionnal technique in ancient books to decorate them and to stay in touch with Chaos.

Make your Own Necklace

Design and create your very own Necklace with the beads that you made during a previous class.

Learn lots of tips and choose from different accessories to make a unique wearable Jewellery.

Drawing with Clay

Discover the incredible possibilities of natural clay, to create lightweight earrings with original pattern.

They might just become your favorite pair to wear at a day to the beach!

From Beads to Vase

Step by step, you will be introduced to different techniques of beads making, and how to join them together to make a cute vessel.

Explore a world where miniature pieces are the centre of interest and how they can become a great prototype for bigger endeavors.

Succulent Pot

Building confidence while you master the basics of pinching techniques, this workshop will give you a better control and understand how clay reacts under different pressure.

Experiment painting with different natural slips and play with clay creating eroded patterns.

Ancient Pottery: Perfume Container

This hand building class is inspired by a work experience that I attended on the beautiful Island of Cyprus.

Take a voyage through time, and learn how to reproduce pottery as people did for over 2000 years ago.

Did you know that the oldest perfume laboratory was discovered in Cyprus?
